	\$40/visit	50%
Covered out-of-state benefits Benefits provided through BlueCard [®] Program, for out-of-state emergency and non-emergency care, are provided at the preferred level of the local Blue Plan allowable amount when you use a Blue Cross/Blue Shield provider.	See Applicable Benefit Line	See Applicable Benefit Line
Optional Benefits	Optional dental, vision, or infertility benefit is available. If your employer purchased any of these benefits, a description of the benefit is provided separately.	

-
- 1 Deductible and copayments marked with a (1) do accrue to calendar-year copayment maximum. Copayments and charges for services not accruing to the member's calendar-year copayment maximum continue to be the member's responsibility after the calendar-year copayment maximum is reached. Please refer to the *Certificate of Insurance* and the group policy for exact terms and conditions of coverage.
 - 2 Copayments marked with a (2) do not accrue to calendar-year copayment maximum. Copayments and charges for services not accruing to the member's calendar-year copayment maximum continue to be the member's responsibility after the calendar-year copayment maximum is reached. Please refer to the *Certificate of Insurance* and the group policy for exact terms and conditions of coverage.
 - 3 Member is responsible for copayment in addition to any charges above allowable amounts. The coinsurance indicated is a percentage of allowable amounts. Preferred providers accept Blue Shield of California Life and Health Insurance Company's (Blue Shield Life) allowable amount as full payment for covered services. Non-preferred providers can charge more than these amounts. When members use non-preferred providers, they must pay the applicable copayment plus any amount that exceeds Blue Shield Life's allowable amount. Charges above the allowable amount do not count toward the calendar-year deductible or copayment maximum.
 - 4 Participating ambulatory surgery centers may not be available in all areas. Regardless of their availability, you can obtain outpatient surgery services from a hospital or an ambulatory surgery center affiliated with a hospital, with payment according to your health plan's hospital services benefits.
 - 5 The maximum allowed charges for non-emergency inpatient hospital services received from a Non-Preferred Hospital are \$600 per day. Members are responsible for 50% of this \$600 per day, plus all charges in excess of \$600.
The maximum allowed charges for non-emergency outpatient hospital services received from a Non-Preferred Hospital are \$350 per day. Members are responsible for 50% of this \$350 per day, plus all charges in excess of \$350.
 - 6 Bariatric surgery is covered when pre-authorized by Blue Shield. However, for members residing in Imperial, Kern, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura Counties ("Designated Counties"), bariatric surgery services are covered only when performed at designated contracting bariatric surgery facilities and by designated contracting surgeons; coverage is not available for bariatric services from any other preferred provider and there is no coverage of bariatric services from non-preferred providers. In addition, if prior authorized by Blue Shield Life, a member in a Designated County who is required to travel more than 50 miles to a designated bariatric surgery facility will be eligible for limited reimbursement for specified travel expenses for the member and one companion. Refer to the *Certificate of Insurance* for further benefit details.
 - 7 Services may require prior authorization by Blue Shield Life. When these services are prior authorized, members pay the preferred or participating provider level.
 - 8 Please note that if you switch from another plan, your prescription drug deductible credit from the previous plan during the calendar year, if applicable, will not carry forward to your new plan. This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called "creditable" coverage). Since this plan's prescription drug coverage is creditable, you do not have to enroll in Medicare Part D while you maintain this coverage; however, you should be aware that if you have a subsequent break in this coverage of 63 days or more before enrolling in Medicare Part D you could be subject to payment of higher Medicare Part D premiums.
 - 9 If the member requests a brand-name drug when a generic drug equivalent is available, the member is responsible for paying the difference between the cost to Blue Shield Life for the brand-name drug and its generic drug equivalent, as well as the applicable generic drug copayment.
 - 10 Mental health and chemical dependency services, other than medical acute detoxification, are accessed through Blue Shield Life's Mental Health Service Administrator (MHSA) – using Blue Shield Life MHSA participating and non-participating providers. Only Blue Shield MHSA contracted providers are administered by the Blue Shield Life MHSA. Behavioral health services rendered by non-participating providers are administered by Blue Shield Life. Services for medical acute detoxification are accessed through Blue Shield Life using Blue Shield Life's preferred providers or non-preferred providers. For a listing of severe mental illnesses, including serious emotional disturbances of a child, and other benefit details, please refer to the *Certificate of Insurance* or the group policy.
 - 11 All outpatient non-severe mental health, outpatient substance abuse, and chiropractic visits accrue to the calendar-year visit maximum regardless of whether the plan deductible has been met.
 - 12 Out of network home health care, home infusion and hospice services are not covered unless pre-authorized. When these services are pre-authorized, the member pays the Preferred benefits.
 - 13 Copayment shown is for physician's services. If the procedure is performed in a facility setting (hospital or outpatient surgery center), an additional facility copayment may apply.
 - 14 **Optional inpatient substance abuse treatment benefits are available. If your employer purchased these benefits, a description of the benefit is attached hereto as "Additional Substance Abuse Treatment Benefits".**
 - 15 Specialty Drugs are specific Drugs used to treat complex or chronic conditions which usually require close monitoring such as multiple sclerosis, hepatitis, rheumatoid arthritis, cancers, and other conditions that are difficult to treat with traditional therapies. Specialty Drugs are listed in the Blue Shield Outpatient Drug Formulary. Specialty Drugs may be self-administered in the home by injection by the patient or family member (subcutaneously or intramuscularly), by inhalation, orally or topically. Infused or Intravenous (IV) medications are not included as Specialty Drugs. These Drugs may also require special handling, special manufacturing processes, and may have limited prescribing or limited pharmacy availability. Specialty Drugs must be considered safe for self-administration by Blue Shield's Pharmacy & Therapeutics Committee, be obtained from a Blue Shield Specialty Pharmacy and may require prior authorization for Medical Necessity by Blue Shield.

Plan designs may be modified to ensure compliance with state and federal requirements
